High Intensity Soil Map
 Notes:

Sketch Map Method By RTK Networking Mode

This map may/maynot be compiled utilizing existing information from surveys. This map is intended for the purposes of septic system permitting and is to be used for no other purpose. The accuracy of the location information of the soil area is not intended to be relevant to the survey information.

Legend:

WID - with interceptor drain; recommend installing 15' or more away upslope of disposal system

— - Edge of evaluation

□ - wood stakes for ground control purposes only

Any disturbance to these soils after this date can void their favorability.

Soil site stakes on ground are for ground control purposes only and do not necessarily designate favorability.

The Soil Consultant's signature does not constitute approval by the Environmental Dept.

Date: 5-30-23

I, Randy S. Dickerson affirm that this soil map meets the standards established in the Regulations to Govern Subsurface Sewage Disposal, the Soils Handbook, and the Soils Taxonomy. No other warranties are made or implied.
